About Us

QHSE International is a leading provider of Quality, Health and Safety, Environmental Consultancy and Training services and soft skills. With headquarter in Dubai, and branches in Philippines, Guinea, Australia, UK, and USA. QHSE International have delivered services internationally such as, in GCC, Europe, South East Asia and Africa. We are committed to providing world-class Health, Safety, and Environmental (HSE) consultancy and training services to organizations across industries. With years of expertise in quality, health, safety, and environmental management, we empower businesses to create safe, sustainable, and compliant workplaces that prioritize the well-being of employees and the environment.

Our Health and Safety Consultancy services are tailored to meet the unique needs of your organization. We offer a comprehensive range of services designed to mitigate risks, ensure legal compliance, and create a safety culture that enhances operational efficiency. From risk assessments and audits to emergency preparedness and HSE policy development, our consultants provide practical solutions that help you manage and improve your HSE performance.

In addition, our Training Institute offers high-quality, industry-relevant training programs designed to enhance the knowledge and skills of your workforce. Our courses cover a wide array of topics, including but not limited to occupational safety, hazard management, first aid, and environmental compliance. We offer both in-person and online training options, ensuring flexibility to suit the needs of your organization.

QHSE

IT IS ESSENTIAL FOR EVERY COMPANY TO COMPLY WITH HEALTH AND SAFETY STANDARDS

LEGAL COMPLIANCE

Adhering to health and safety regulations is required by law, avoiding potential fines and legal issues.

EMPLOYEE WELLBEING

Protecting employees from injuries and illnesses ensures a safer and healthier work environment.

ENHANCE PRODUCTIVITY

A safe workplace leads to fewer accidents, reducing downtime and improving overall productivity.

MANAGEMENT'S REPUTATION

Companies that prioritize safety enhance their reputation, building trust with employees, customers, and stakeholders.

COST SAVING

Preventing workplace accidents reduces medical costs, insurance premiums, and compensation claims.

RISK MANAGEMENT

Complying with regulations helps identify and mitigate potential hazards before they cause harm.

QHSE
INTERNATIONAL

ISO CONSULTANCY

CONSULTANCY SERVICES

QHSE
INTERNATIONAL

Competent and highly qualified consultants can undertake risk assessments in conjunction with client representatives.

QHSE International have safety professionals with training, knowledge and experience across many sectors and are able to provide the best person and most competent person for the nature of the work.

Risk assessments are conducted in conjunction and consultation with client representatives to ensure the quality and validity of the risk assessment as well as raising health and safety awareness with the client's personnel.

QHSE International can provide risk assessments systems, formats and templates for client use and also develop training programs that include training on the specific risk assessment methodologies adopted and utilized by the client.

RISK ASSESSMENT

EVACUATION PLAN

As an integral part of Fire Protection System in order to protect life and assets, we also develop fire evacuation plans as per the UAE Civil Defense Codes of Practice.

We provide the entire range of:

1. Fire risk assessments.
2. Fire Escape Route Plans and drawings.
3. Acrylic panel and standoff screws

Best quality of Fire Escape Route Plan is provided by us to customers as per their requirements.

We believe we are one of the most trusted names in between the topmost companies in this domain with our vast industrial experience and expertise, engaged in Health and Safety. This Fire Escape Route Plan is designed by our skilled professionals.

QHSE International will create and design Emergency Plans according to your building blueprint with particular emphasis in ensuring the safety of people staying in buildings.

The Evacuation Plan comes with an acrylic panel and standoff screws upon delivery.

QHSE

CONSULTANCY SERVICES

The challenge to organizations is to identify where the skills gap exist, what training is required and how to ensure that the training undertaken with reduced budgets actually meets objectives – and also provides the individual and organization with a return on investment.

QHSE International helps organizations identify skills gaps and approach training in a holistic and, more importantly, cost-effective way. With QHSE International's engagement with the public and private sectors, our experts will identify the skills gaps an organization will need to fill and recommend appropriate training solutions. Whether it is gaps in finance, governance, fraud, procurement, contract management, HR, Operations, business partnering or other skills, we can pinpoint exactly what needs to be done.

QHSE International will do:

- Identify any gaps in your employees' training.
- Offer a tailored learning and development solution that is at the core of your organizational development.
- Challenge your assumptions on what training is really required.

TRAINING NEEDS ANALYSIS

We work with organizations across various industries to ensure their operations meet local and international safety regulations. Our audits cover areas such as risk assessments, hazard identification, emergency procedures, employee safety training, and compliance with regulatory frameworks. The goal is to help clients foster a safer work environment, minimize risk, and promote overall organizational efficiency.

With our expertise, QHSE International provides valuable insights and practical solutions to improve safety culture, reduce incidents, and enhance operational performance.

SAFETY AUDIT

CONSULTANCY SERVICES

QHSE
INTERNATIONAL

QHSE International provides highly trained and experienced safety officers to help organizations maintain a safe and compliant working environment. Our safety officers are equipped to handle a range of responsibilities, including:

1. Risk Assessment & Hazard Identification
2. Safety Training & Awareness
3. Compliance Monitoring
4. Incident Reporting & Investigation
5. Emergency Preparedness
6. Onsite Safety Oversight

Our safety officers are flexible and can be deployed on a temporary or full-time basis, depending on your organization's needs, ensuring that you maintain a high standard of safety at all times.

PROVISION OF SAFETY OFFICERS

QHSE International's CEMP helps manage the environmental impacts of construction projects, ensuring compliance with regulations and promoting sustainability. Our plan includes:

- **Impact Assessments:** Identifying environmental risks (e.g., waste, pollution, noise).
- **Regulatory Compliance:** Adhering to environmental laws and permits.
- **Waste and Pollution Control:** Minimizing waste and preventing pollution.
- **Monitoring and Reporting:** Tracking environmental performance.
- **Emergency Response:** Planning for environmental emergencies.

Our CEMP service helps ensure your project is environmentally responsible and compliant with all relevant regulations.
