HEALTH SAFETY & ENVIRONMENT (HSE) POLICY

We at QHSE International are committed to protect everyone and the sustainability of the environment in which it operates.

QHSE International will endeavour to:

- Preventing harm to employees, clients, society and all others who could be affected by our activities
- Creating a safe workplace for all employees and minimizing impact to the environment
- Being accountable for promoting continued safety educations, trainings and services by assigning responsibilities for all aspects
- Co-operate with the legal authorities in evolving laws and regulations to safeguard the workplace, the community and the environment
- Maintain awareness of HSE matters and share information about any significant hazards arising from its processes with individuals and who are likely to be affected.
- Addressing the environmental and health impact by reducing waste, emissions and by using energy efficiently.

Commitment towards continual improvements in the performance of all activities (Health, Safety & Environmental Principles) with which we are associated.

Nabil Feghali
Managing Director
